All-Wool Means Lasting Style

Do you realize what "all-wool" means to a garment? It is the only thing that makes fine tailoring worth while; garments of poor material, however well-made, will not hold their shape. They soon go to pieces in looks and in reality, and customers, of course, are highly dissatisfied.

In view of such conditions we are gratified to be able to recommend unreservedly the quality of our Coats, Suits, and Skirts. They are absolutely all-wool, and more than ordinary workmanship put into every detail. See these values while the line is complete.

TALK OF THE TOWN

John Wilkinson returned to his home in Teconderoga, N. Y., to-day, after passing a few days with friends in the city.

Basing his request on the ground that he should not be assessed twice for curbing located in front of his premises, T. C. McCarthy's curbing assessment on South Main street, was abated by the street committee at the assessment hearing last Saturday. The report of the hearing in yesterday's Times unintentionally left the impression that Mr. McCarthy's claim was disallowed. Exemption from the present assessment was granted him because he contributed to the cost of a curb which was removed when the paving was laid last summer.
